MEMORANDUM FOR: Director of Security

CONFIDENTIAL

25X1A

ATTENTION : [REDACTED] Acting Executive Officer

SUBJECT : Inspector General Survey of the Security Office

1. The Deputy Director (Administration) desires to make an interim report to the Director of Central Intelligence concerning the action taken on recommendations contained in the report of the Inspector General on the Security Office.

2. Interim information received periodically from your office indicates that action has been completed on many of the recommendations, that plans have been made to carry out others over ensuing months, that action is necessarily delayed in some cases, and lastly, that some recommendations are not concurred in by your office. Whatever the case may be, it is desired that the progress report be as decisive as possible.

3. Toward this end, I have reviewed each recommendation in the Inspector General's report in terms of the text of the survey report and your comments to date. In this process I have discovered numerous supplementary recommendations or alleged deficiencies which are not specifically covered in your replies and some which perhaps have been completely overlooked.

4. In order that we can be sure that full consideration has been given to each of the formal recommendations, as well as those buried in the text, there is a series of pages attached hereto, each listing the supplementary recommendations or noted deficiencies as related to the formal recommendations of the Inspector General's report. In addition, apparent recommendations or deficiencies not previously isolated have been set forth.

5. It is requested that you review each of the original recommendations and your earlier replies, together with these supplementary points in mind, and provide the full answers indicated. We believe this process will be useful in ensuring that maximum benefit is derived from the survey and that full corrective action will be taken.
